

SUPPLEMENTAL FINANCIAL INFORMATION

As of December 31, 2020

This presentation contains "forward-looking statements" within the meaning of the federal securities laws that involve risks and uncertainties, many of which are beyond our control. Our actual results could differ materially and adversely from those anticipated in such forward-looking statements as a result of certain factors, including those set forth in the Quarterly Report on Form 10-Q. Forward-looking statements relate to matters such as our industry, business strategy, goals and expectations concerning our market position, future operations, margins, profitability, capital expenditures, financial condition, liquidity, capital resources, cash flows, dividends, results of operations and other financial and operating information. When used in this presentation, the words "will," "may," "believe," "anticipate," "intend," "estimate," "expect," "should," "project," "plan," and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words.

The forward-looking statements contained in this presentation are based on historical performance and management's current plans, estimates and expectations in light of information currently available to it and are subject to uncertainty and changes in circumstances. There can be no assurance that future developments affecting us will be those that we have anticipated. Actual results may differ materially from these expectations due to the factors, risks and uncertainties described in the Annual Report on Form 10-K, as filed March 30, 2021 ("Annual Report"), changes in global, regional or local political, economic, business, competitive, market, regulatory and other factors described in the "Risk Factors" section of the Annual Report, many of which are beyond our control. Should one or more of these risks or uncertainties materialize or should any of our assumptions prove to be incorrect, our actual results may vary in material respects from what we may have expressed or implied by these forward-looking statements. We caution that you should not place undue reliance on any of our forward-looking statements. Any forward-looking statement made by us in this presentation speaks only as of the date on which we make it. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by applicable securities laws.

COMPANY OVERVIEW

Description

Corporate Information

Headquarters	San Diego County, CA
Founded	1999
Key Geographies	CA, CO, ND
Employees	22

- Presidio Property Trust, Inc. ("Presidio" or the "Company") was founded in 1999 as NetREIT
- Presidio is a self-managed real estate company focused on commercial real estate opportunities in often overlooked and regionally dominant markets

Portfolio Summary (Number / Square Footage)

Office	10 properties / 832,766 sq. ft
Retail	4 properties / 131,722 sq. ft.
Industrial	1 property / 150,030 sq. ft.
Model Homes (1)	6 funds / 118 homes

- The Company acquires and manages office and industrial real estate assets in markets with strong
- demographic and economic drivers with attractive going-in cap rates
- Presidio's commercial portfolio currently includes 15 commercial properties with a book value of approximately \$123.7 million

Portfolio Value & Debt

SEGMENT DATA

DEFINITIONS – NON-GAAP MEASUREMENTS

EBITDAre - EBITDAre is defined by Nareit as earnings before interest, taxes, depreciation and amortization, gain or loss on disposal of depreciated assets, and impairment write-offs.

Funds from Operations ("FFO") – The Company evaluates performance based on Funds From Operations, which we refer to as FFO, as management believes that FFO represents the most accurate measure of activity and is the basis for distributions paid to equity holders. The Company defines FFO, a non-GAAP measure, as net income or loss (computed in accordance with GAAP), excluding gains (or losses) from sales of property, hedge ineffectiveness, acquisition costs of newly acquired properties that are not capitalized and lease acquisition costs that are not capitalized plus depreciation and amortization, including amortization of acquired above and below market lease intangibles and impairment charges on properties or investments in nonconsolidated REITs, and after adjustments to exclude equity in income or losses from, and, to include the proportionate share of FFO from, non-consolidated REITs.

However, because FFO excludes depreciation and amortization and as well as the changes in the value of the Company's properties that result from use or market conditions, each of which have real economic effects and could materially impact the Company's results from operations, the utility of FFO as a measure of the Company's performance is limited. In addition, other equity REITs may not calculate FFO in accordance with the NAREIT definition as the Company does, and, accordingly, the Company's FFO may not be comparable to such other REITs' FFO. Accordingly, FFO should be considered only as a supplement to net income as a measure of the Company's performance.

Core Funds from Operations ("Core FFO") – We calculate Core FFO, a non-GAAP measure, by using FFO as defined by NAREIT and adjusting for certain other non-core items. We also exclude from our Core FFO calculation acquisition costs, loss on early extinguishment of debt, changes in the fair value of the earn-out, changes in fair value of contingent consideration and the amortization of stock-based compensation.

We believe Core FFO provides a useful metric in comparing operations between reporting periods and in assessing the sustainability of our ongoing operating performance. Other equity REITs may calculate Core FFO differently or not at all, and, accordingly, the Company's Core FFO may not be comparable to such other REITs' Core FFO.

Same Store Net Operating Income ("Same Store NOI") – Same Store NOI, a non-GAAP measure, is calculated as the NOI attributable to the properties continuously owned and operated for the entirety of the reporting periods presented. The Company's definition of Same Store NOI excludes properties that were not stabilized during both of the applicable reporting periods. These exclusions may include, but are not limited to, acquisitions, dispositions and properties undergoing repositioning or significant renovations.

The Company evaluates the performance of its same-store property operating results based upon net operating income from continuing operations, which is a non-GAAP supplemental financial measure. The Company defines NOI as operating revenues (rental income, tenant reimbursements and other operating income) less property and related expenses (property operating expenses, real estate taxes, insurance and provision for bad debt) less interest expense. NOI excludes certain items that are not considered to be controllable in connection with the management of an asset such as non-property income and expenses, depreciation and amortization, asset management fees and corporate general and administrative expenses. The Company believes that net income is the GAAP measure that is most directly comparable to NOI; however, NOI should not be considered as an alternative to net income as the primary indicator of operating performance as it excludes the items described above.

We believe Same Store NOI, a non-GAAP measure, is an important measure of comparison because it allows for comparison of operating results of stabilized properties owned and operated for the entirety of both applicable periods and therefore eliminates variations caused by acquisitions, dispositions or repositioning during such periods. Other REITs may calculate Same Store NOI differently and our calculation should not be compared to that of other REITs.
